**COVERLAM TOP by GRESPANIA** is an innovative product made from natural raw materials with exceptional mechanical & aesthetic properties.

As an international ceramic manufacturing company, GRESPANIA has been producing collections which boast both innovative technical properties as well as innovative cutting-edge designs for the past 40 years.

GRESPANIA has 3 factories that are equipped with state-of-the-art technology and one of them uses lamination pressing technology to produce **COVERLAM TOP** - large format slabs that are available in 1600x3200mm and 12mm thicknesses.

With its great strength and highly-resistant finishes, **COVERLAM TOP** is resistant to wear and scratches, hence highly suitable for use as kitchen tops, countertops, island tops, tables and wardrobes.

**COVERLAM TOP** can also meet the most demanding needs of residential and commercial settings in terms of resistance to heat, chemicals and damp stains. In addition, thanks to its minimal porosity, it is a hygienic and antibacterial surface that is ideal for food preparation.

Innovative and contemporary, **COVERLAM TOP** is perfect for both indoor and outdoor spaces.
